

BODEGA BAY FIRE PROTECTION DISTRICT
STANDARD OPERATING GUIDELINES

WRITTEN BY: ELSON APPROVED BY: *[Signature]* NUMBER: 100

SUBJECT: Globalstar Satellite Phone (Telit)

DATE: 15MAY06

The Bodega Bay Fire Protection District has purchased a Globalstar Satellite (Telit) Phone with 600 annual user minutes.

SN: 449131440563999 Model: SAT 550
Phone number: (254) 241-6344

The purpose of this phone is for communications during natural or other major disaster or during emergency incidents when all other regular means of communications has failed.

Operators should review the manufactures manual for features, indicator lights and symbols. This manual is located with the phone. This unit shall be kept in 8880 during all operations. This phone may be used at any Bodega Bay area EOC for communications with the Sonoma County EOC.

This phone should be exercised with the monthly apparatus check. Turn the phone on, place a call and receive a call. Recharge the battery. The battery is lithium does not hold a memory. Draining the battery is not necessary.

The antenna must be rotated to the upward position. The phone can only be used in the outdoors with clear view of the sky. Upon activation, the phone will search for a satellite, this may take a few minutes based upon location.

To place a call dial 001, the area code and number. All other functions are similar to standard cellular phone operations.

Do not operate this phone within 25 feet of persons with pace makers, aircraft or medical equipment sensitive to RF signals. Do not operate this phone within 300 feet of any gasoline filling stations, or areas containing hazardous materials or explosive environments.
