

BODEGA BAY FIRE PROTECTION DISTRICT  
***STANDARD OPERATING GUIDELINES***

WRITTEN BY: K. Downing

APPROVED BY: 

NUMBER: 34

**SUBJECT: Solar Panel Performance Log**

**DATE: 24 June 08**

The following is for the purpose of maintaining the functional state and output of the station solar panels.

The solar performance log shall be filled out once a week documenting each Photovoltaic control unit identified as A, B, and C unit. Document the Date, Time, Pac (W), E-Total (kWh), and weather information based on visual observation.

To cycle through the display, tap anywhere on the housing.

This SOG shall be part of the weekly/monthly schedule.

For further information please contact Station Maintenance.
